"GO TO MT. TOM BY ELECTRIC CARS"

From Amherst via Mt. Holyoke College, Holyoke and beautiful Mountain Park

Did you ever have a notion that you wanted the earth? If so, come up and look it over. There's lots of it. Perhaps you won't want all of it when you come to see it. A nice little farm in Pelham might satisfy you. You'd have good neighbors, good preaching and low taxes there. Come up and talk it over and take a squint at Amherst, Shuterbury, Hadley and Granby.

You can catch a car every half-hour.

C. J. Cunningham & Co.

306 and 308 High Street

To The General Public

This directory is sustained principally by the merchants, professional people and manufacturers whose advertisements appear herein. If you appreciate the host of information which it contains, if you appreciate the prestige it gives to your town to visitors and to residents of nearby and distant cities where it is distributed the least you can do is to show it by patronizing the concerns whose names appear in the Index to Advertisers and let them know you saw their advertisement in the directory. The publishers know of many instances where a well placed advertisement in a directory has brought large sales, but the purchaser neglected to inform the merchant to that effect, that is ingratitude for the service that the directory had rendered them.

Respectfully yours,

H. A. Manning Co.

AMHERST

A town of about six thousand inhabitants, is beautifully located in the valley east of the Connecticut river and north of the Holyoke range of mountains. It is the seat of two noted educational institutions—Amherst College and Massachusetts Agricultural College. Originally part of the town of Hadley.

The Central Massachusetts division of the B. & M. R. R. and New London Northern division of the C. V. R. R. pass through the town. Connected by electric railway with Northampton, Holyoke, Sunderland and Pelham.

Amherst College

Amherst College was founded in 1821. Charter was received Feb. 21, 1825. The college has had in all nearly 6,500 students and nearly 4,500 alumni, of whom about two-thirds are now living. Little aid has been received from public funds. The edifices, ground endowments, which now exceed $2,000,000 in value, are almost entirely due to private benefactions.

The Presidents of the college have been;

Rev. Zephaniah Swift Moore, D. D., 1821-1823.
Rev. Herman Humphrey, D. D., 1823-1845.
Rev. Edward Hitchcock, D. D., LL. D., 1845-1854.
Rev. William Augustus Stearns, D. D., LL. D., 1854-1876.
Rev. Julius Hawley Seelye, D. D., LL. D., 1876-1890.
Merrill Edwards Gates, Ph. D., LL. D., L. H. D., 1890 1898
Rev. George Harris. D. D., LL. D., since 1899

The corporate name of the institution is the "Trustees of Amherst College", and the following persons constitute the

The College is situated one mile north of the center of the village of Amherst on an estate of four hundred and three acres. Connected with railroad station by electric railway.

The principle college buildings are twelve in number comprised as follows:

North College
South College
The Stone Chapel
Draper Hall
Clark Hall
Wilder Hall
Entomological Department
Durfee Plant House
Two Experiment Stations
Two Brick Dormitories
Heating and Lighting Plant

MUTUAL PLUMBING & HEATING CO. HARDWARE MUTUAL PLUMBING & HEATING CO.

Besides the above buildings there are on the estate five large dwelling houses and smaller buildings used for various purposes. Buildiug of the Veterinary department.

The grounds about the college are very tastefully laid out and are continually improved and ornamented each summer

The offices of the President, Dean and Treasurer and Registrar are located in South College

The regular course of study at the college covers four years and the degreee of Bachelor of Science is conferred upon those who complete it. All the studies are required during the first two years. Elective courses are offered during the Junior year, while all the Senior work is elective except bactereology and the constitution of the United States. The study of various sciences, as chemistry, botany, and zoology, upon which agriculture is based, forms a very prominent part of the course. in fact, students may specialize in these lines without taking the agricultural course proper. Thorough instruction is also given mathematics, i. e , mechanics, physics, practical surveying and engineering, as well as in history, political economy and modern languages. All students, except Seniors, are required to drill three hours per week.

Besides the regular four years' course, the college offers a short winter course in dairying, agriculture, horticulture and bee culture. A normal school in agriculture was held for the first time during the past summer and will probably be continued each year. This course continues about one month and is open to all teachers.

Tuition at the Massachusetts Agricultural College is free to all citizens of the United States.

THE MASSACHUSETTS AGRICULTURAL EXPERIMENT STATION

The Massachusetts Agricultural Experiment Station is situated upon the college grounds. It has exclusive use of two large brick buildings, one the Administration building the other occupied by the department of Plant and Animal Chemistry. Other departments of the Station are accommodated in various college buildings. The Station also has a glass house for pot experiments, poultry houses, fertilizer house and threee large barns for the storage of crops and for experiments with farm animals. A considerable area of land is devoted to plot experiments for the purpose of studying the growth of plants under different methods of treatment.

The Experiment Station is supported by funds supplied by both the national and state governments. It was instituted for the purpose of aiding the farmer by investigating the manifold problems connected with the various lines of agriculture,

The Mutual Plumbing and Heating Co.

The official control of the sale of commercial fertilizers and food stuffs centers here. A great variety of fertilizers, cattle food and dairy products as well as drinking waters are yearly analyzed. It is found neccessary in some cases to make a charge sufficient to cover the cost, but if the work promises to be of public interest, no charge is made.

The Station is organized under seven distinct departments. agricultural, horticultural, botanical, chemical (subdivided into research, fertilizer and feed and dairy divisions), entomological, veterinary and meteorological.

Young Women Can't See

WHY WE ARE DYEING

Cleansing and repairing garments of every description for so little money. If you could see the amount of business we are doing, together with the skillful help employed and the facilities with which we turn out the work you would no longer marvel at our low prices. We make a specialty of dry cleansing party dresses of the most delicate fabrics. Should you prefer, we can dye them any shade, without riping or changing their original shape.

Young Men Should Not

BE EXTRAVAGANT

Instead of buying new, bring us your old clothes. We can dye, cleanse and repair them as necessity demands, making them look as good as new. If you have an overcoat that needs any repairs, such as relining, rebinding or new pockets, let us do it. We guarantee all our work to be satisfactory. If you live in the city, telephone us to call for your packages when they are finished we will deliver them. Goods sent by mail or express receive prompt attention.
